

# CNP's Leaf Hunt

Celebrate Fall with CNP's Leaf Hunt. Our Sacramento area is lucky to have many native and nonnative trees. Below are the names to several commonly found trees in our area, along with an image of what their leaves resemble. For a larger list of trees in our area visit [calscape.org](http://calscape.org) or [sactree.com](http://sactree.com). This is also published at [www.CreativeNaturePlayschool.com](http://www.CreativeNaturePlayschool.com) :-) #OVunplugged

<b>Valley Oak</b> 	<b>CA Black Walnut</b> 	<b>A Brown Leaf</b> 	<b>Blue Oak</b> 
<b>Another tree starting to change colors</b> 	<b>Western Sycamore</b> 	<b>Boxelder</b> 	<b>CA Buckeye</b> 
<b>Fremont Cottonwood</b> 	<b>Port Orford Cedar</b> 	<b>Oregon Ash</b> 	<b>Interior Live Oak</b>
